

Krista Kelly gives a special Christmas gift.

The Kelly girls have been around for a while. People know them because they have skated and competed for a long time; we know them from their activities with the Junior Board, being part of the Ice'Kateers Synchro Teams; they are friends and teammates to many. It has always been easy to pick out Kim and Krista in a crowd. They were the tall blonds with long hair. Things are different now.

Krista may not be as easy to pick out of a crowd anymore. She cut her hair this past weekend, and I don't mean a trim. Krista cut off almost a foot...yep, 12 inches of long blond hair! I don't know when the last time it was that Krista had her hair cut, and her mom, Dee, may have been tempted to keep the golden locks, but Krista wouldn't let her. Instead, Krista gave a special Christmas gift to someone she doesn't even know and will probably never meet. She donated her hair to a company that makes wigs for cancer patients.

If Krista was beautiful before, she's simply stunning now.....
