

Doing what he knew he could...Sean Rabbitt has a great skate and takes second in the long program with a score of 99.53 which was good enough to give him a 7 point lead over his nearest competitor with a solid silver medal victory and over all point score of 149.84!

Congratulations Sean.

Sean will probably be orbiting the earth for several days...so we will have to wait a while for his blow by blow of the long program! ha ha ha
